“There and Back” is the chilling story of two-time all-county and collegiate football and lacrosse star Ken Bartolo. While starring in both sports at Jamesville-Dewitt High School, Ken’s addiction began, costing him scholarship offers from colleges and universities across the east coast. Ken shares the story of his 27 years of substance abuse, leading to the incredible story of his recovery. This presentation is a brutally honest look at the violence and insanity of the world of addiction and how it can destroy the lives of the most promising of our youth. Ultimately it is a story of hope. With strength, dedication and undying faith in himself, Ken conquered decades of addiction to alcohol, prescription and illicit drugs. His message is meant to encourage today’s youth to believe that, with faith in themselves, anything is possible.
