

Holland Patent Central School District

Comprehensive Developmental School Counseling Plan 2021

Counseling is a process of helping people by assisting them in making decisions and changing behavior. School counselors work with all students, school staff, families and members of the community as an integral part of the education program. School counseling programs promote school success through a focus on academic achievement, prevention and intervention activities, advocacy and social/emotional and career development.

-American School Counselor Association, 1999

The Role of the School Counselor

School counselors work to create a school/community environment where all students can thrive.

LEADERSHIP TEAM MEMBERS: School counselors work to maximize student success, promoting access and equity for all students. As vital members of the school leadership team, school counselors create a school culture of success for all.

➤ School counselors help all students:

- apply academic achievement strategies
- manage emotions and apply interpersonal skills
- plan for postsecondary options (higher education, military, work force)

➤ Appropriate duties include providing:

- individual student academic planning and goal setting
- school counseling classroom lessons based on student success standards
- counseling to students and referrals to outside resources
- collaboration with families/teachers/administrators/community for student success
- advocacy for students at individual education plan meetings and other student-focused meetings
- data analysis to identify student issues, needs and challenges
- acting as a systems change agent to improve equity and access, achievement and opportunities, health and wellness for all students

The School Counselor's Role

School counselors design and deliver school counseling programs that improve student outcomes. They lead, advocate and collaborate to promote equity and access, health and wellness, and a safe learning environment for all students by connecting their school counseling program to the school's academic mission and school improvement plan. They uphold the ethical and professional standards of ASCA and promote the development of the school counseling program based on the following areas of the ASCA National Model: define, deliver, manage and assess.

DEFINE

School counselors create school counseling programs based on three sets of standards that define the profession. These standards help school counselors develop, implement and assess their school counseling program to improve student outcomes.

Student Standards –	Professional Standards –
<ul style="list-style-type: none">● ASCA Mindsets & Behaviors for Student Success: K–12 College-and Career-Readiness for Every Student	<ul style="list-style-type: none">● ASCA Ethical Standards for School Counselors● ASCA School Counselor Professional Standards & Competencies

The Role of the School Counselor

MANAGE

To be delivered effectively, the school counseling program must be efficiently and effectively managed. School counselors use program focus and planning tools to guide the design and implementation of a school counseling program that gets results.

Program Focus	Program Planning
<ul style="list-style-type: none"> ● Beliefs ● Vision Statement ● Mission Statement 	<ul style="list-style-type: none"> ● School Data Summary ● Annual Student Outcome Goals ● Action Plans <ul style="list-style-type: none"> ○ Classroom and Group ○ Closing the Gap ● Lesson Plans ● Annual Administrative Conference ● Use of Time ● Calendars <ul style="list-style-type: none"> ○ Annual ○ Weekly ● Advisory Council

DELIVER

School counselors deliver developmentally appropriate activities and services directly to students or indirectly for students as a result of the school counselor’s interaction with others.

These activities and services help students develop the ASCA Mindsets & Behaviors for Student Success and improve their achievement, attendance and discipline. Through the school counseling program, school counselors ensure equitable academic, career and social/emotional development opportunities for all students.

Direct Services with Students	Indirect Services for Students
<p>Direct services are in-person interactions between school counselors and students and include the following:</p> <ul style="list-style-type: none"> ● Instruction ● Appraisal and Advisement ● Counseling 	<p>Indirect services are provided on behalf of students as a result of the school counselors’ interactions with others including:</p> <ul style="list-style-type: none"> ● Consultation ● Collaboration ● Referrals

ASSESS

To achieve the best results for students, school counselors regularly assess their program to:

- determine its effectiveness in helping all students succeed
- inform improvements to their school counseling program design and delivery
- show how students are different as a result of the school counseling program

School counselors also self–assess their own mindsets and behaviors to inform their professional development and annually participate in a school counselor performance appraisal with a qualified administrator.

The Role of the School Counselor

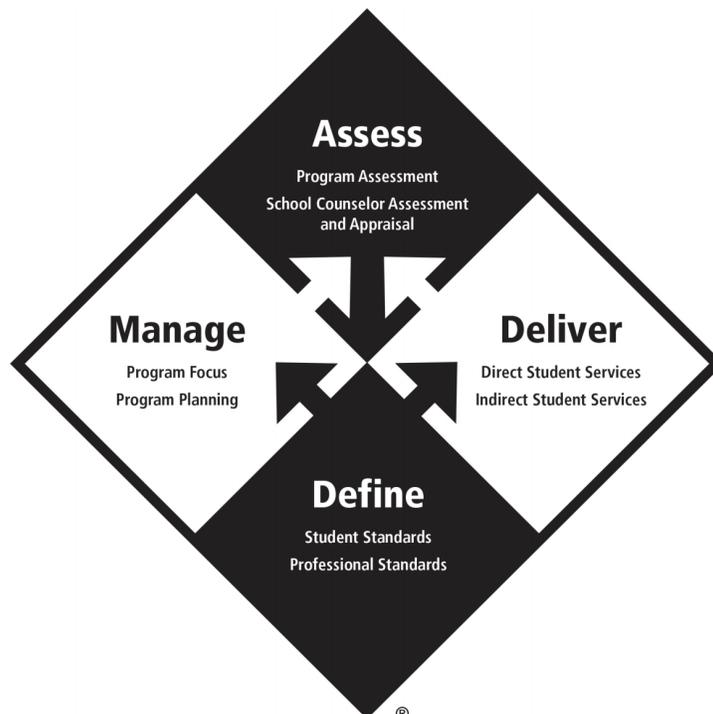

The ASCA National Model provides the following tools to guide assessment and appraisal.

Program Assessment

- School Counseling Program Assessment
- Annual Results Reports

School Counselor Assessment and Appraisal

- ASCA School Counselor Professional Standards & Competencies Assessment
- School Counselor Performance Appraisal Template

Components of a School Counseling Program

“Positive school climates...and a whole-child approach with an emphasis on social-emotional learning (SEL) will lead to improved outcomes for children” (from the Introduction to NYS Guidance Pertaining to Commissioner’s Regulations 100.2(j))

The comprehensive school counseling program implements a multi-tiered system of support that includes classroom instruction for all students, interventions to support students’ ability to participate in and benefit from their education, develop their social-emotional skills, develop college and career readiness skills, and provide more intensive interventions and support for those who need them.

Our Mission

Holland Patent Central School District

Holland Patent Central School will provide a safe, caring, positive environment where all students can achieve their maximum innate potential and acquire the skills, attitudes, and abilities necessary to succeed in an ever-changing world.

Holland Patent Central School provides programs that address the diversified academic, vocational and co-curricular needs of its students.

General William Floyd Elementary:

It is our belief at General William Floyd Elementary School, that each child who walks through our doors has the ability to learn. To this end, we make an ongoing commitment to provide each and every one of the children the education they need to take positive control of their lives in an ever-changing society.

If children are to succeed, live well, and contribute to society as they grow physically, mentally, emotionally and socially, we believe we need to establish a safe and nurturing, positive environment for them. Within that environment, we will provide the students, in conjunction with the home, the guidance to help them become all they are capable of being. Through our encouragement and positive communication with the home, the students will strive to develop a good self-image, responsibility for themselves, respect and caring for others, and the ability to make prudent value judgments leading to effective actions.

Keeping this mission as a clear direction for our school at all times, we believe with good communication with the home, that all students will be able to succeed, not only academically, but socially, physically, and emotionally.

Holland Patent Elementary:

Holland Patent Elementary will provide an environment where learning is a positive experience. It is our aim that students will develop pride, respect, and responsibility for self and others in our ever changing society. We will instill in each child the desire to strive for personal excellence and develop an appreciation for lifelong learning.

Holland Patent Middle School:

The faculty, staff, students and community of the Holland Patent Middle School are devoted to academic excellence and the growth of individual strengths and talents. Our school will provide a friendly and supportive environment, where individual differences and respect for the rights of others guide school and community behavior.

Holland Patent High School:

Holland Patent High School will be a positive, stimulating environment in which all may develop the academic and social skills for reaching their potential as productive responsible citizens in our ever-changing world.

Our Philosophy

Holland Patent Central School District Guidance Philosophy

Students are at the center of what we do. The ultimate goal of the counseling department at HPCSD is to nurture the personal development of all students to help them set and achieve their goals.

Through our work, the counseling department

- empowers students to develop their individual strengths to reach their highest potential;
- supports students and staff in developing a safe, nurturing school;
- works with students and families to develop academic, social-emotional, and college and career readiness skills;
- prepares students to be responsible, lifelong learners

NYS Regulations and Standards

NYS Regulation Requirements:

The Holland Patent Comprehensive Counseling Plan aligns with the amended Commissioner's Regulation & 100.2(j) Guidance Programs and Comprehensive Developmental School Counseling/Guidance Programs effective July 1, 2019:

Program Overview:

- The counseling program will be aligned to the district's mission and vision statement
- The Holland Patent School District's comprehensive developmental counseling program includes all students K-12
- All Holland Patent students K-12 have access to a certified school counselor
- The Holland Patent K-12 counseling program is designed in coordination with the teaching staff to prepare students to effectively participate in their current and future educational programs, address multiple student competencies including career/college readiness standards, academic, and social/emotional development standards
- For students in grades K-5, the program is designed by a certified school counselor in coordination with instructional and other Pupil Personnel staff

Services Overview:

The Holland Patent K-5 counseling program is designed:

- To prepare students to participate effectively in their current and future educational programs
- To provide information related to college and careers
- To assist students who may exhibit challenges to academic success, including but not limited to attendance or behavioral concerns
- Where appropriate, to make a referral to a properly licensed professional and/or certified pupil personnel service provider for more targeted supports

For students in grades 6-12, certified school counselors will:

- Conduct an individual progress review plan, which reflects each student's educational progress and career plans;
- For a student with a disability, the plan shall be consistent with the student's individual education program (IEP);
- Where appropriate, make a referral to a properly licensed professional and/or certified pupil personnel service provider for more targeted supports

All Holland Patent students will participate in the following activities or services:

- Screen to determine individual social/emotional/mental health needs of students in response to the COVID-19 pandemic
- School counseling core curriculum instruction in classes and/or small groups for the purpose of addressing student competencies related to career/college readiness, academic skills, and social/emotional development by a certified school counselor

Direct student services to enable students to benefit from the curriculum. Direct services are the heart of the school counseling/guidance program that include in-person interactions with students, individually or in groups. These services include but are not limited to:

NYS Regulations and Standards

- Responsive services, crisis response, group counseling, individual counseling, appraisal, assessment and advisement for the purpose of enabling students to benefit from the curriculum
- Assisting students to develop and implement postsecondary education and career plans
- Assisting students who exhibit attendance, academic, behavioral or adjustment concerns
- Encouraging parental involvement

Indirect student services that enable student to benefit from their education include:

- referrals to appropriately licensed or certified individuals,
- consultation, collaboration, leadership, advocacy, and teaming, such as SBIT, where student needs can be reviewed, and a plan developed

Plan Development and Review:

The Holland Patent CSD has developed a district-wide & building level comprehensive school counseling plan that complies with the regulation requirements and is in accordance with the following:

- Developed by or under the direction of a certified school counselor
- The plan will be updated annually and a report will be presented to the Board of Education
- The plan is filed in the district office and is available for review by any individual to obtain a hard copy of the plan or access it on the district website
- The plan presents program objectives, which describe expectations of what students will learn; activities to accomplish the objectives; specifications of the staff members and other resources assigned to accomplish the objectives; provisions for the annual assessment of the program results

The Holland Patent CSD will develop and maintain a Counseling Advisory Council (CAC) to review the plan and advise on its implementation.

- Membership will include representative stakeholders
- The advisory council shall meet at least bi-annually to review the comprehensive developmental school counseling program
 - to provide feedback on program goals (developed and explained by the school counselor), review program results (based on data presentations by the school counselors), make recommendations about the school counseling program, and serve as advocates for the program.
- The review and recommendations of the CAC shall be documented and made available to the school administration and counseling staff to solidify a plan for completion. Further, the recommendations and corresponding action plan shall be shared with the superintendent, who shall then share said documentation with the Board of Education.
- The CAC will provide the district plan to the Board of Education annually, providing an overview of progress and plans for continued work of the CAC.

NYS Regulations and Standards

Career Development and Occupational Studies (CDOS) Learning Standards

Building Capacity and Closing Performance Gaps

Standard 1: Career Development

Students will be knowledgeable about the world of work, explore career options, and relate personal skills, aptitudes, and abilities to future career decisions.

Standard 2: Integrated Learning

Students will demonstrate how academic knowledge and skills are applied in the workplace and other settings.

Standard 3a: Universal Foundation Skills

Students will demonstrate mastery of the foundation skills and competencies essential for success in the workplace.

Standard 3b: Career Majors

Students who choose a career major will acquire the career-specific technical knowledge/skills necessary to progress toward gainful employment, career advancement, and success in post-secondary programs.

The Career Plan Initiative:

The Career Plan serves as a document for learners to record their development in the following areas for the purpose of motivating students to achieve high standards and develop goals to succeed in their future education and career choices:

- Self-knowledge
- Career exploration
- Career and life goals
- Classroom learning application
- Foundation skills awareness

This resource supports education reform to close the performance gap.

The Career Plan Process:

- Supports the career education/workforce readiness National Dropout Prevention Center strategy to increase graduation rates
- Provides information on the skills and knowledge students need that can facilitate the development of the school district's Comprehensive District Education Plan, Guidance Plan, Professional Development Plan and student Academic Intervention Services

NYS Regulations and Standards

- Facilitates development of the student Individual Education Program and the Individual Plan for Employment for students with disabilities
- Supports the development of an organization that furthers both academic excellence and personal development – one of the seven essential elements identified by research for effective middle-level education programs
- Enhances teacher pedagogical preparation, instructional delivery and knowledge of student development through the delivery of Career Development and Occupational Studies Learning Standards instructional strategies
- Documents delivery of the CDOS Learning Standards 1, 2, and 3a
- Provides the foundation for the completion of the Employability Skills Profile component of approved Career and Technical Education programs that supports CDOS Standard 3b
- Involves students and parents in the guidance process
- Furthers student awareness of and entry into Career and Technical Education
- Contributes toward a positive gain in student basic academic skills achievement levels as demonstrated by career education evaluation studies
- Connects to the New York State Department of Labor’s career development resource, Career Zone
- Furthers the goal of the State Workforce Investment Board and its Emerging Worker Subcommittee to sustain a statewide career development system
- Supports ESSA by motivating individual student academic achievement

HPCSD Comprehensive School Counseling Plan Goals and Action Plans

Holland Patent Central School District School Counseling/Guidance Program Delivery Map						
District Goal 1: Support the academic development and college and career-readiness of all students.						
Grade level(s)	Direct & Indirect program activity or service	Tier (1,2, 3)	Program Objectives <i>(Students will be able to___)</i>	Staff & Resources	Assessment & Evaluation Methods	Time Frame
