Questions or comments

Well Connected!

If you have any tech tips you want to share, please send it to us at mmcnamara@hpschools.org.

*For other great ideas on how to use Seesaw be sure to click on https://docs.google.com/document/d/1Miw.

Share writer in any language.

Code with Apple's Swift AppSmash w/ditty.com

Organize genius hour in their life.

Students learn about a period in history while podcasting.

Students waiting in the doctor areas.

Podcasts are a great way for your students to share what they learn. The app Overcast makes podcasting easy.

You can search the Internet within any Office 2016 program (without exiting the program.) This Bing search feature is called: Smart Search

You can search the Internet within any Office 2016 program (without exiting the program.) This Bing search feature is called: Smart Lookup

Rethink paper/pencil record in any language.

Your iOS device.

We have some middle school students starting their own podcasts and hope to have more soon. For example, some apps can link to your Twitter account and will post to Seesaw automatically when you tweet a link to your podcast.

Each app has slightly different options for subscriptions, episode streaming and storage space. Some offer as little as 10 MB, some as much as 1 GB.

Use the Photo books feature to build a book and to order physical books of the students' artwork.

Record oral counting activities. See PhotoScan for the students to capture and record their time.

Reflect during genius hour. Everyone is wonderful to hear about fun, engaging apps that can be utilized at a variety of levels.

We have some middle school students starting their own podcasts and hope to have more soon.

Use Google Photos to store your photos or videos to create a customized video.

Upload your photos to Google Photos from all your devices.

Support ELL families and their students.

Give students with disabilities the tools to capture their strengths.

Record reading and writing assessments.

Support oral language development.

Record and share audio from podcasts.

Take a photo and record a goal!

Set goals. Update them.

Practice commenting with students and have peers respond.

Record and share digital creations from the makerspace. Students can share their work.

Record classroom stories! An example of a resource is Web Resource of the Week!

A month ago, I came across an app called CasterCast. I can now use it to create, share and record podcasts.

Kelly Croy, author of Share your knowledge...with the world via Seesaw Blogs on how to use Seesaw to increase student engagement.

New resource: Vicki Davis offers a different theme each weekday in her Teacher Tips blog. Kelly Croy offers a podcast called "Professional Development for the Tinkering Teacher" which is available on iHeartRadio.

Good luck to all this month!

Your prizes are on the way!
